

It's a Mission Statement!

The other night I watched Jerry Maguire for probably the tenth time! It is one of my all time favourites, likely because I see a lot of myself in Tom Cruise's portrayal of Jerry, who has a sleepless night where he creates a document aimed at changing the path of the entire Sports Agent business - to one where each agent looks after a stable of less athletes, gives each better service and makes less money.

I have always been someone with big dreams. Huge dreams actually! So much so that the doctors who look after me have called them 'grandiose.' My answer to this is that 'with God, everything is possible.'

God has given me a great many visions over the last twenty years. He has given the name of my journey; '**Come Away With Me**, the ongoing story of the life of Ross Harvey.' Along with this He has given the tagline; 'Everything happens for a reason.' Between the days of December 25th and 31st, 2003, I had a time I call my 'Seven Days on the Mountain With God.' Leading up to this time myself and two associates from Minneapolis, MN were working on a project named G3 - Global Golf Group. On December 25th, I Googled G3 and the first thing which came up was 'God's Genuine Gift.' I knew this was significant and in a matter of a few days, came to understand that G3 - God's Genuine Gift - refers to the Second Coming of Jesus Christ and the descent of Heaven to earth for every person who has ever been conceived.

God led me to create a company - G3 - and to have subdivisions of this company:

- **Eden Project** - all positive changes for human life. Eden Project is subdivided into four companies: [NuVoWay](#), [G3 Golf](#), [dogZlife](#) and [NuVoWay Foundation](#)
- **Noah Project** - all positive changes for animal life

These five companies include every segment of society and will ultimately grow to a point where every component is present in every square mile across the planet! When this happens, we will have Heaven on Earth!

One of my favourite texts is by a man named Varenycuiz called [The Wisdom Course](#). It is the template used to create the book and movie; 'The Secret.' The essence of a part of the book is that we should never put any limitations on God's ability to deliver us 'our own.' We must first create the ideal in our mind and ensure it is perfect. We must then visualize this in all its details. Then we must let it go and have complete faith that every mechanism for realization of our dreams is in motion in the unseen realm.
