

Changing the World

I was just writing to a great friend who has had an over 30 year career as a pilot, flying commercial planes as well as smaller types. For many years now I have told him of God's plans for him:

- Flying the **G3 787 Dreamliner**, taking all the people working at high level within G3 to destinations all across the world to see all the G3 developments springing up. Also flying our **G3 GulfStream Luxury Jet** for shorter destinations with smaller numbers of people.
- When at our destinations, traveling by sea on our **Oceania G3 Cruiselineer**, with Owner's Suites for every passenger: <https://www.youtube.com/watch?v=cCwgUBdWfFA>
- Staying in **G3 Hotels** at every destination, having access to some of the most amazing suites in the world (for every person in the group): <https://www.youtube.com/watch?v=FRn-IJV2ARY> and only a short walk to **The Forum Entertainment and Restaurant Complexes**.
- In every city we will play racquet sports at the newly developed **NuVoWay LifeStyle Centres**, golf at the newly developed **G3 Golf 36 Hole Championship Layouts**, enjoy great food at the newly built **The Forum Entertainment and Restaurant Complexes**, have a blast at **G3 Theme Parks** and see great talent perform at the 5,000 capacity **G3 Performance Halls**. <http://dogzlife.ca/>

As we progress on implementation, a great many people from all across the world will become involved with G3. Their lives will take on a richness as never before. In 2003, God gave the name of this journey; 'Come Away With Me, The ongoing story of the life of Ross Harvey.'
